Sir, Having seen in 'The Teacher's Aid'

that you have supplied a case of

specimens, may I ask if you will

be good enough to extend a similar favor

to me? It would be a great boon to our children

who are in many respects, a disadvantage

## CITY OF ST. ALBANS SCHOOL BOARD,

St. Albans,

May 22<sup>nd</sup> 1895

Alma Road Girls' Board School.

Sir,

It has occurred to me to ask your kind assistance towards enlarging the specimens in my museum. It is most necessary to have objects for illustration and I should be extremely grateful if you would send to me some Botanic specimens. I cannot possibly procure them myself, & I therefore trust you will be so good as to give me a favourable reply, & thus confer a great benefit upon my school of 350 girls.

Trusting you will pardon me for thus troubling you. I remain

Sir

Yours faithfully

Sir,

Having seen that you supply  
botanic specimens (free of cost) to  
schools, I take the liberty of asking for  
the same to be sent to me. The school  
is near the old Abbey, and many  
visitors who come to see the latter,  
also visit the school. Thus it forms  
a good advertising medium. Any  
specimens which may be sent, will  
be gratefully received both by managers  
and teachers. Botany is one of the  
subjects taught in this school. Thanking

Dear Sir,

On the 11<sup>th</sup>  
May, a parcel addressed  
Headmaster Pre School  
Wooler came from New  
Gardens. Mr Leach  
Headmaster of the  
National School  
suggested that Pre  
should have read the  
& immediately handed  
over the parcel to him.

10  
Strange to say, I was  
expecting a parcel from  
Mr. Francis Geo Heath  
Underwood Kew, the  
well known authority  
on ferns & trees; and  
I naturally came to the  
conclusion that the  
parcel had been sent  
at his instigation.

For the past month my  
elder pupils have been  
of their lessons on Botany.  
These were illustrated by  
your specimens. Unless  
you kindly sent me another

Dear Sir,

On behalf of the Managers of the New Richmond Public School, I desire to very cordially thank you for sending to the School a parcel of Museum specimens.

Unhappily recent unforeseen events will compel the Managers to close the School at an early date. Under these circumstances we think it only right that your opinion as to the destination of these specimens should be solicited. No doubt many of the Schools in Richmond and many more in the West of London, would be only too glad to possess them. If you think fit, the Managers would be glad to transfer them to some deserving Richmond School, so that they may be retained for Educational purposes.

We took a party of  
our children over your  
Museum in July and  
they were deeply interested  
by what they saw, and  
I can assure you, if  
you are able to reach  
within the Museum to  
pick out specimens for  
me, your kindness  
will be greatly and  
gratefully appreciated  
by both teachers and

School? We have  
just opened five new  
Schools, and they are  
well attended in all  
departments, but the  
teachers who had charge  
of the School in the  
old buildings had no  
Museum, and we  
are finding it rather  
difficult to collect  
specimens.

I have been informed that, by making application to you, I can be supplied with various specimens of timber, Cones, &c. I shall be exceedingly obliged if you will kindly furnish me with a number sufficiently large to be of service to me, when giving lessons to my boys on the various kinds of timber. I have specimens of the following woods. - Yellow Pine. Yellow Deal. To the Curator, Botanical Museum, New.

Dear Sir, I would be very greatly obliged if you would kindly spare me a few specimens of Blanks, seeds, or, what we want in our geography, Science, or what you may think you might be kind enough to send. Our children are most thoroughly up to date

We have close upon 900 children in attendance. A popular concert, attended by between 300 & 400 adults is held in our large room every Saturday, and a large Sunday school meets on the premises, so that anything you might be good enough to send, would receive attention from other parts than the scholars, for if for any the specimens in the museum, they would be exhibited on the special walls on in

the school museum

Trusting you may be able to comply with my request,

Sir, I have received a parcel  
today from you in  
which a charge of  
1/3 was made for  
carriage. I did not  
write about it and  
I think some mistake  
has been made. I  
am the only head  
teacher here, and  
my school is for

Infants, and the  
Parcel sent is no  
use to me.

There is a Manual  
School under a  
Master, but neither  
he nor his staff  
seem to know anything  
of it.

If you would give  
me the name of the  
person who wrote you  
I could forward a  
claim, agreement for

Mr. [unclear] (540)

I see in the "Teacher's" list that you supply a parcel of botanical specimens to schools applying for them.

I have just taken charge of a small [unclear] school which is badly supplied with illustrations for object-lessons & shall be very grateful for any specimens you can spare, as history is a favourite subject with me. Thanking you in anticipation

I remain,  
Yours truly,

This Quincy desires to thank  
 the Director of Herbaria  
 for the parcel of specimens  
 which arrived safely today.  
 They will be a valuable  
 addition to the School Museum,  
 & will prove both useful  
 and interesting.

Dear Sir

We are collecting objects  
+ specimens for a Museum  
at the above School. I teach  
my Boys Cottage Gardening. In  
1902 they exhibited vegetables  
at the Royal Botanical Garden  
London in the Nature Exhibition

Should be glad if you would  
kindly send us Yours truly
